hello vairam, thanks for your response. its really nice to know that you have understood the question. i am really happy to know that you have replied to my questions and are going to write about that in anandavikatan. also i have read your first post on dr.kamils. i have a few questions on it. 1) the book is named as the culture of the tamils in india by dr.kamil. is it name any one of the author? if so then can you list all the authors including their name, the year of their publication and the type of publication? 2) i am also interested in knowing on which page the word "tamil" was mentioned. it is of great importance to study the languages which have been used in tamil nadu. what are the earliest languages used in tamil nadu? who was the first person to mention the word tamil? how far back they used to refer to as tamil? can we understand these things by studying the indian history? 3) the last page of the book has an article by dr. k muralidharan. what is that? i am interested in knowing the contents of that article. 4) the book is published by the bhartiya vidya bhavan. what do we know about the institution? can we assume that the institution is related to any political party? if it is so then what party it belongs to? 5) is it written in a scholarly way? is it a book in the present day standards? 6) if the answer to question 5 is "yes" then i request you to write about it in anandavikatan. then it will be very valuable for the readers of the journal. can you please provide me the info on the book "the culture of the tamils in india"? if you have any other question please do not hesitate to ask me i hope that i have not missed anything out of this. please send your answer soon. do not forget to send me the list of authors as you said.
